SKILLS

Front End Development

JavaScript, TypeScript, React, Next JS, Redux, Redux-Saga, React Router, React Query, Tailwind, Material UI, Sass, Formik, Yup

PROFESSIONAL EXPERIENCE

Aeronology Philippines Inc., Software Engineer [🔗](#)

Oct 2021 – present

Makati City, Philippines

- Implemented two big features in two different projects in two different frameworks (React and Vue) that both earn an estimated total of **AU\$1,000,000 per month** per airline consolidator.
- Oversaw three junior developers by guiding them through the business logic and ensuring consistent code style within the team.
- Spearheaded the modernization of the codebase and total redesign of the two projects that resulted in **acquiring 3 additional airline consolidators** and **sponsorship from the Australian government**.

Locastic, React Developer (Freelancer) [🔗](#)

Apr 2022 – Jul 2022

Split, Croatia

- Developed multiple marketing websites and e-commerce webshops for different clients around the world.
- Coordinated with the project manager/designer for a seamless development process that **reduced UI and business logic mismatch by 50%**.

Codevelopr Inc., Software Engineer [🔗](#)

Sep 2020 – Oct 2021

BGC, Philippines

- Actualized **more than 100 UI components and business logic** created by the designer and the product manager.
- Increased **team productivity by 12%** by administering the Front End team as a Scrum Master.
- Interviewed 4 local and 3 foreign candidates for the frontend position regarding the technical side of the recruitment process and helped the hired applicants to familiarize the current codebase.

TMJP BPO Services Inc., Web Developer [🔗](#)

Jun 2018 – Sep 2020

BGC, Philippines

- Planned, documented, and developed 2 enterprise applications that both earn a total of **¥20,000,000 per month** for the clients in Kagoshima, Japan.
- Led the standups and demonstration meeting with the Digital Exchange Lab team and the executives in the parent company as a Scrum Master.
- Increased the application's **performance by 30%** by administering the client's servers and optimizing the files in their data storage.
